

We would like to express our sincere gratitude for your continued patronage. Blue cabin Ishigaki Island, taking the health and safety of the customer and employees, is making the following efforts to prevent the infection and spread of the new virus. Also, we will make necessary changes based on the latest information.

◆ Initiatives within the establishment

· Thorough ventilation

The establishment with windows and doors is appropriately circulated with air.

· Reinforcement of disinfection and cleaning

- Hand disinfection facilities have been installed at the entrance and within the establishment.
- Handles, electrical switches, remote controls, etc., in the guest room which comes into contact with guests during the stay are appropriately cleaned.
- Doors, inside the elevator, elevator floor buttons, shared space, toilet, etc., which comes into contact with an unspecified number of people are appropriately disinfected.

· Social distancing

- Please maintain awareness for social distancing of 1 to 2m in shared spaces, during check-in and check-out.
- The guest rooms are prepared in alternate.

◆ Initiatives for employees

- We check their physical conditions and temperature when starting work. If they are unwell with cough, fever, etc., we mandate them to report to the person in charge and stay at home.
- Wearing of mask while working is obligated.
- Hands are appropriately disinfected when entering the establishment, after using the restroom and etc.

◆ Request to customer

- Please cooperate with alcohol disinfection when entering the establishment.
- Please fill in the “Self-check sheet” during check-in for confirmation of customer’s health condition.
- Alcohol disinfections have been installed within the establishment. Please use them appropriately.
- Please wear a mask inside the establishment.
- Please check your temperature daily.
- If you feel unwell, please tell the staff around you.
